

MISSION-READY PROTECTION

Military Humvees Fully Customized for Fit Your Needs for Defense or Civilian Use to Obtain Full Protection or Luxury With Our Fully Restored Humvee Trucks

The Basic Humvee is a simple restored truck with a full engine tune up with new batteries and filters with a full new paint job inside and out. These trucks are restored once again in new conditio to addon anything else you want.

ARMORED HUMVEE \$155,000

The Armored Humvee is the crown jewel of our company, which is the reason why we started refurbishing these trucks. We can fully armor these trucks with 46100 armor on doors, plating, and turret, but can upgrade to Frag 5 or 6 armor.

PLATINUM HUMVEE \$105,000

The Platinum Humvee is fully setup to be made for luxury and comfort with leather heated seating, electric roll up doors, GPS navigation screen, sound proof with insulated walls, surround sound system, and premium tires and paint.

BAJA HUMVEE \$125,000

The Baja Humvee is fully outfitted to be ready for the harshest conditions off roading with harness seating, upgraded tires, additional roll cages, stereo system & loaded with a brand new LS1 Engine with more than enough power to go anywhere,

CUSTOM OPTIONS AVAILABLE

All trucks can be custom built to your specs depending on what is needed for your fleet or for personal use. Additional charges will be applied for custom projects.

INTERIOR FINISHES

All interior finishes can either be restored to its originality as a military version, or we we fully finish the interior with a luxurious interior for comfort and convenience.

WORLDWIDE SHIPPING

ship worldwide. All trucks are either

best rate to get to your country.

We are based out of the United States, but

shipped in shipping containers or we can ship them in the open depending on the

FULL SIZE TRUCKS

Our full size trucks are made to haul much larger loads and have as much off road capabilities as the traditional Humvees that we have.

TRUCK OVERVIEW

Below is a detailed overview of the different types of trucks we offer to see what options fit best for you.

General Specs of Standard Trucks

plant- or field-installable perimeter protection

MIL-A-46100 Armor Steel Plate: Material Type: High-hardness quenched and tempered alloy steel. Standard: MIL-DTL-46100E (latest military specification). Hardness: 477-534 HB (Brinell Hardness). Thickness Range: Typically 0.187" to 2.5" (4.75 mm to 63.5 mm). Tensile Strength: Approximately 180,000 – 240,000 psi. Applications: Military vehicles, armored personnel carriers, security installations. Ballistic Resistance: Designed to stop small arms fire and shrapnel. Weldability: Liomited; requires specialized tools due to hardness. Corrosion Resistance: Requires coating/paint for rust protection.
